ACCESS

Please note this space has no wheelchair/level access. We are aware this presents a huge issue, as a venue that aims to be accessible for all, and we are working to provide a solution to this in the future.

Access is via the front of the building via two staircases. The first step from the street has no handrail, each internal staircase has handrails. There are 14 steps from street to the front of the theatre and then a further seven steps inside the auditorium which contains raked seating.
